Search the grid to find the animal names.

The words may be hidden in any direction.

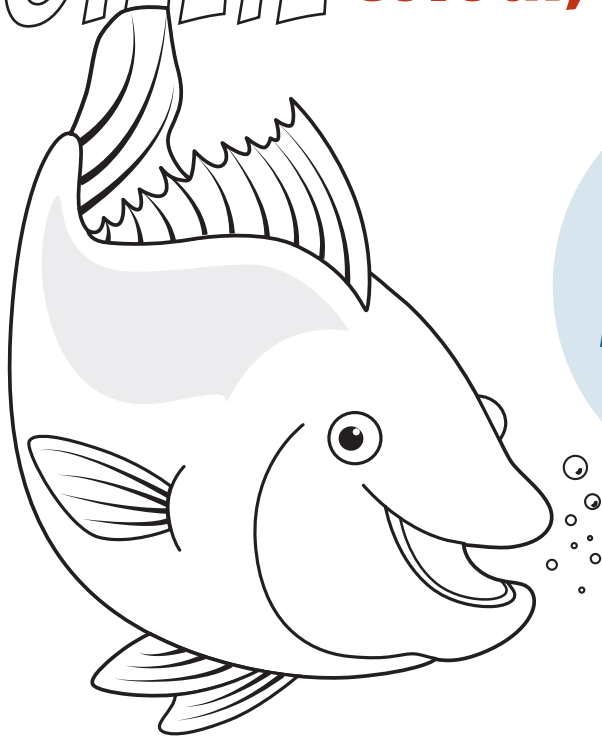

Q. Why are fish so smart?
A. They live in schools

GILLIE colour, pattern and thakala

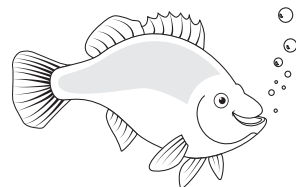

The Baaka is home to the Golden Perch. We are commonly known as Yellowbelly. Can you guess why?

Golden Perch can grow up to 50 cms long and weigh up to 5 kgs.

Baaka life like *GILLIE*

Help these river babies follow the adults.

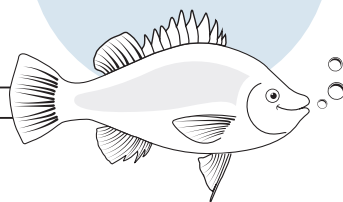

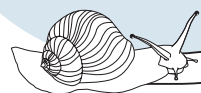

Murray Cod are the largest freshwater fish in Australia. They can grow up to 1.8 m long.

Olive Perchlets only grow as long as your finger and are transparent.

Olive Perchlets have big eyes so they can feed at night.

Darling River Snails are hard to find. Their cone-shaped shells are only 1-2 cms long. They don't have legs but slide on a foot.

Silver Perch can grow up to 40 cm long.

Help **GILLIE** colour and count

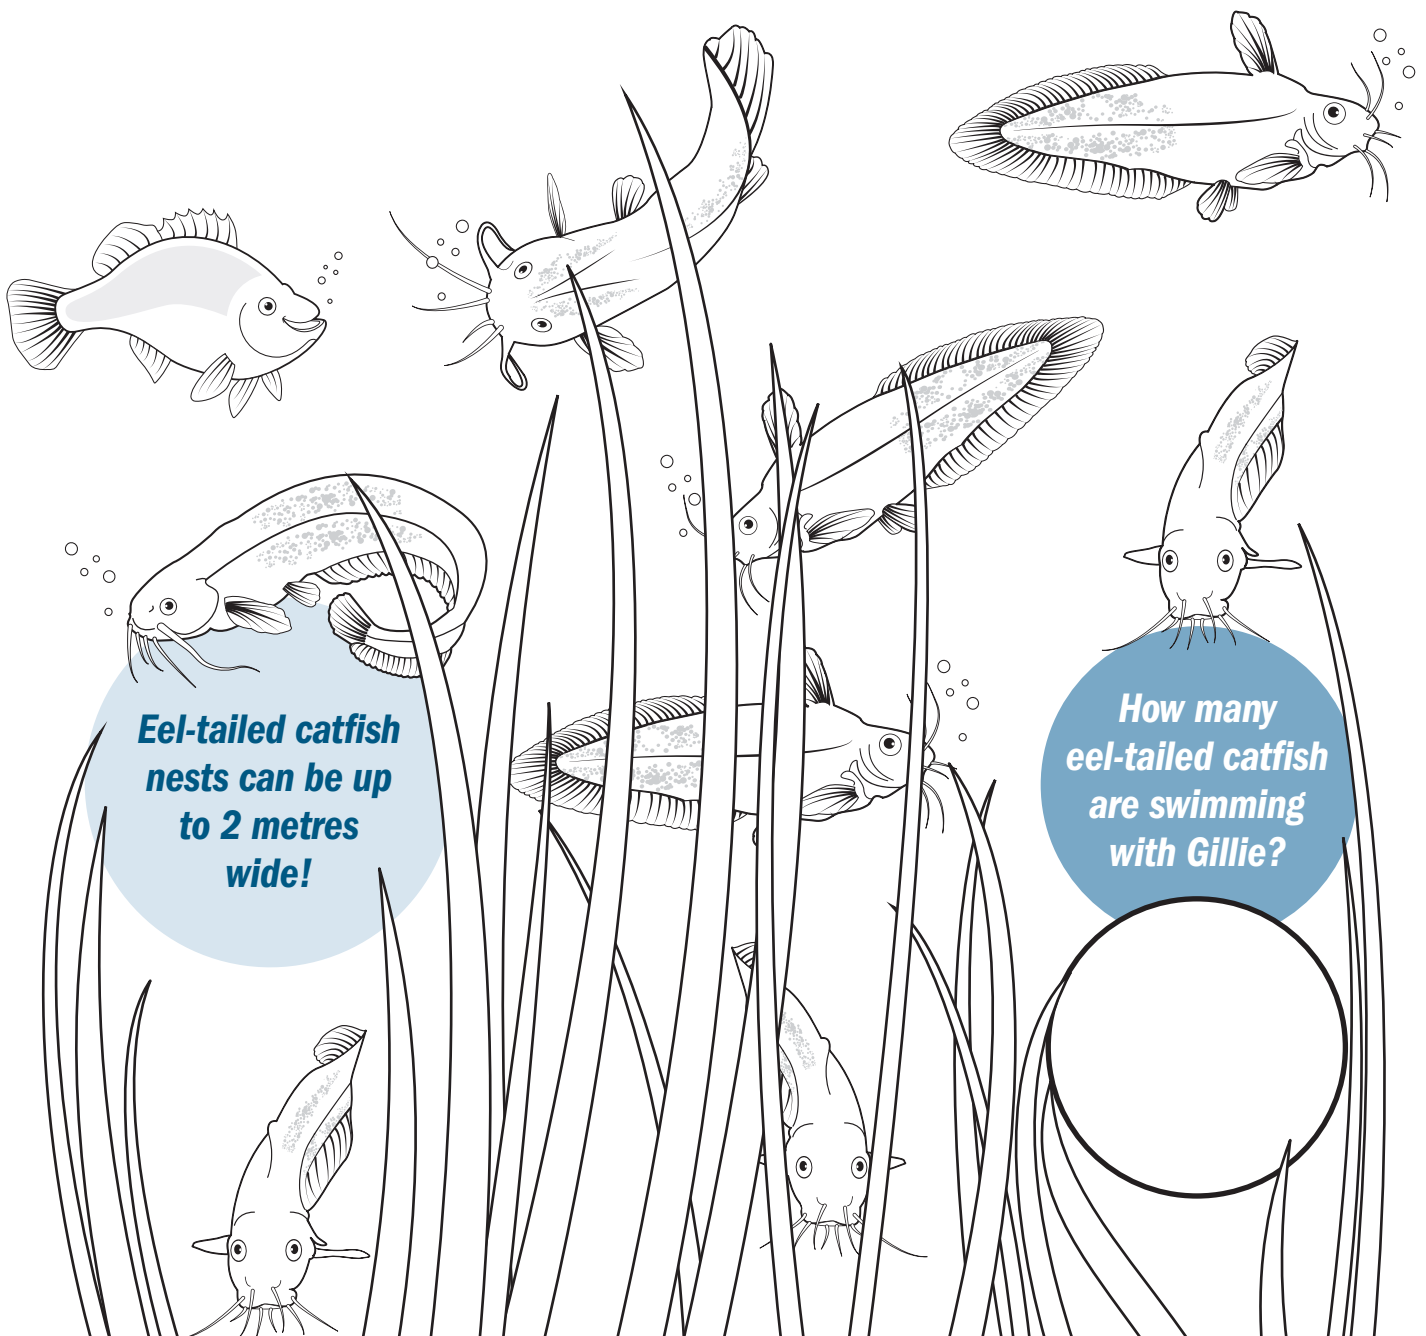

Hide and seek is "o-fish-ally" my favourite game! Play by colouring and counting my catfish friends.

Have you heard that the Baaka is home to eel-tailed catfish?

These freshwater fish are native to the Murray-Darling River and can grow up to 90 centimetres long. That's almost 1 metre!

How tall are you?

Eel-tailed catfish use small river stones and gravel to build nests for their eggs.

GILLIE'S a-maze-ing journey

Help Gillie
find his
friends

and don't
get lost on
the way!

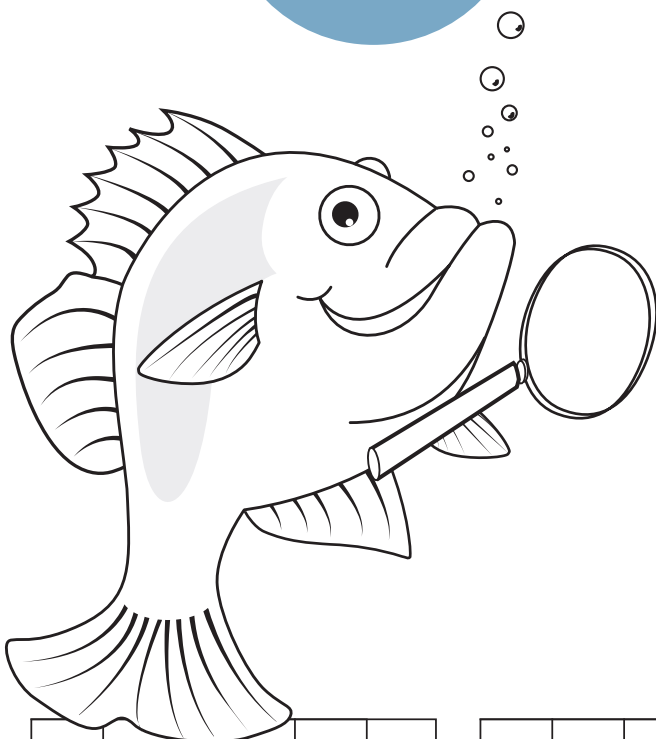

This looks
turtle-y cool!

GILLIE Code breaker

This page is gill-ty of too many fish puns!

Use the grid to help Gillie crack the code.

HINT
It's Gillie's favourite saying.

8	E	M	Z	X	Q	K
7	G	R	I	C	M	A
6	K	J	H	U	O	K
5	M	V	K	G	Y	B
4	X	Q	D	Q	F	W
3	S	M	N	P	Z	M
2	X	K	Q	T	K	L
1	W	Q	Z	M	X	Z
	A	B	C	D	E	F

C4	E6	C3	E6	D2	D2
D2	B7	E6	D6	D2	

E5	E6	D6	B7	A3	A8	F2	E4
F5	A8	D7	F7	D6	A3	A8	

F7	C3	E5	E4	C7	C3	C7	A3
D3	E6	A3	A3	C7	F5	F2	A8

This is fishy!
