

Help **GILLIE** colour and count

Hide and seek is "o-fish-ally" my favourite game! Play by colouring and counting my catfish friends.

Have you heard that the Baaka is home to eel-tailed catfish?

These freshwater fish are native to the Murray-Darling River and can grow up to 90 centimetres long. That's almost 1 metre!

How tall are you?

Eel-tailed catfish use small river stones and gravel to build nests for their eggs.
