**Subject:** No to the Dunoon dam

Hi there,  
I'd like to register my opposition to the building of a dam in Dunoon, and my support of the building of private water tanks on people's roofs and properties, and a desalination plant as possible solutions to water shortages. I don't believe the dam proposal has been adequately researched against other options that do not require more destruction of our wild animals' habitat in this day and age. It's just not acceptable to take so many of their homes as a consequence for our own short sightedness, that led to us creating this climate change and water shortage in the first place.  
Sincerely,

[REDACTED]
