P2 Q25 - HTML	P3 Q1 - HTML	P3 Q2 - Do you agree that these are the priority water challenges for the North Coast region that we need to focus on?	P3 Q3 - Please outline what you see as the priority water challenges in this region over the next 20 – 40 years?	P3 Q4 - HTML
		Yes		

P3 Q5 - Priority 1: Water for critical human and environmental needs	P3 Q6 - Do you have any comments on the proposed actions identified?	P3 Q7 - HTML
<pre>{ "1.1 Develop ongoing collaboration with local Aboriginal people in water management":{"Do you support this action?":"Yes"}, "1.2 Support place-based initiatives to deliver cultural outcomes for Aboriginal people":{"Do you support this action?":"Yes"}, "1.3 Support improved governance":{"Do you support this action?":"Yes"}, "1.4 Deliver a river recovery program":{"Do you support this action?":"Yes"}, "1.5 Support landholder adoption of best practice land management":{"Do you support this action?":"Yes"}, "1.6 Assess the vulnerability of surface water supplies to sea level rise and saltwater intrusion":{"Do you support this action?":"Yes"}, "1.7 Identify environmental water needs to support healthy coastal waterways":{"Do you support this action?":"Yes"}, "1.8 Characterise and plan for climate change and land use impacts on coastal groundwater sources":{"Do you support this action?":"Yes"}, "1.9 Protect ecosystems that depend on coastal groundwater":{"Do you support this action?":"Yes"}, "1.10 Improve monitoring of water extraction":{"Do you support this action?":"Yes"} }</pre>	<p>These are all very generic and not that critical for the north coast where irrigation and water use compared to natural flows is so low.</p>	

P3 Q8 - Priority 2: Sustainable water resources for new and existing users	P3 Q9 - Do you have any comments on the proposed actions identified?	P3 Q10 - HTML
<p>{ "2.1 Improve fish passage ":{"Do you support this action?": "Yes"}, "2.2 Implement fish-friendly water extraction ":{"Do you support this action?": "Yes"}, "2.3 Establish sustainable extraction limits for surface water and groundwater sources": {"Do you support this action?": "Yes"}, "2.4 Implement daily extraction limits ": {"Do you support this action?": "Yes"}, "2.5 Reduce the take of low flows ": {"Do you support this action?": "Yes"}, "2.6 Support Aboriginal business opportunities ": {"Do you support this action?": "Yes"}, "2.7 Address catchment-based impacts of increased harvestable rights limits": {"Do you support this action?": "Yes"} }</p>	<p>Once again very generic and not high priority in the north coast where much of this has already been implemented. Daily limits should be %age based ratehr than volume based, ie if river is flowing at 80 ML/day instead of 0 extraction up to 10% should be allowed.</p>	

P3 Q11 - Priority 3: Prepare for future climatic extremes	P3 Q12 - Do you have any comments on the proposed actions identified?	P3 Q13 - HTML	P3 Q14 - Should any proposed actions in this Consultation Paper not be shortlisted and why?
<p>{ "3.1 Support local councils to provide a secure and affordable water supply for towns": {"Do you support this action?": "Yes"}, "3.2 Provide better information about water access, availability and climate risks": {"Do you support this action?": "Yes"}, "3.3 Review water markets": {"Do you support this action?": "Yes"}, "3.4 Investigate increased on-farm water storage ": {"Do you support this action?": "Yes"}, "3.5 Increase use of recycled water for intensive horticulture": {"Do you support this action?": "Yes"} }</p>	<p>Once again very generic. Recycled water should be used for high value use first being urban, ie purified recycled water. No mention of water efficiency and integrated water cycle management? Also no mention of making BASIX stronger or minimum supply requirements for maintaining minimum living standards</p>		<p>Generally very generic and not acknowledging what has already been achieved</p>

P3 Q15 - Should any other options in Attachment 1 of the Consultation Paper be shortlisted?	P3 Q16 - HTML	P3 Q17 - Which actions should be implemented first and why?	P3 Q18 - HTML	P3 Q19 - I give my permission for my submission to be publicly available on the NSW Department of Planning and Environment website.	P3 Q20 - I would like my personal details to be kept confidential.
<p>Water Efficiency Improving BASIX Drought Response Planning Climate resilient supplies of water</p>		<p>3.2 - Cannot resolve issue or be prepared if not aware of possible consequences</p>		<p>Yes</p>	<p>Yes</p>
