WOODSTOCK

Interested people must register to attend. To comply with COVID-19 standards, sessions will be limited to 8 community members at a time. If there is demand we will look at adding an extra session.

These sessions are to provide an update on the Wyangala Dam Wall Raising Project. They are for residents of Woodstock and the local area only. Additional face to face sessions will be held for the local dam communities over the coming weeks. We will also be hosting monthly project webinars for the broader community starting in September. We will advertise these on Facebook and in local papers. We thank you for your patience at this time.
