First off, let me introduce myself.

My name is [REDACTED], I'm 16 years old and I live in Casino but spend most of my weekends in The Channon.

I have a lot of concerns regarding the plans of the Dunoon Dam, a few of them being the care for native animals, the disruption of a beautiful gorge and the destruction of Aboriginal Heritage.

There is already so much extinction pressure on native fish, koalas and platypuses and I feel as if this dam won't help with anything in the slightest. The Dunoon Dam would take away habitats, heritage sites, and could even harm residents of the Channon.

When RCC promotes the dam as the 'cheapest option' it must be noted that destruction of the Juukan Rock Shelters was also thought the 'cheapest option' by Rio Tinto, at the time.

With all due respect, there are other options other than this dam, like fixing the leaks.

Kind regards,
[REDACTED]
