Meeting minutes

Item No.	Submission No. - Property and Issue No. Landholder Requests	HRC member: [REDACTED]	HRC member: [REDACTED]	HRC member: [REDACTED]	HRC member: [REDACTED]
		Remarks or request for additional information from NRAR/DPIE-W	Remarks or request for additional information from NRAR/DPIE-W	Remarks or request for additional information from NRAR/DPIE-W Not supported - Non-consensus report received 25 th January 2022	Remarks or request for additional information from NRAR/DPIE-W
9.	<p>Contested submission</p> <p>N068 [REDACTED] confirm previous decision with clarifying statement to explain why the pipe flow rates were not accepted/adjust decision based on previous example of pipe flow rate changes. The landholder would like to know why the engineers report was not accepted.</p>	<p>4. Endorse: N</p> <p>NOTHING FURTHER TO ADD TO REMARKS BELOW</p> <p>Remarks or request for additional information from NRAR/DPIE-W</p> <p>Response to email from [REDACTED]</p> <p>Dated: 3/11/21</p> <p>Hi [REDACTED], my view was that the photos showed a part filled pipe showing FPH. Yes at maximum head the engineering report would be I assume, correct. However as flood heights</p>	<p>4. Endorse: N</p> <p>Maintaining consensus decision made at meeting 51</p> <p>Email to [REDACTED]</p> <p>Dated: 1/11/21</p> <p>My recollection of meeting 51 is that you did discuss the engineering report and had formed an opinion that you shared with the committee.</p> <p>The draft minutes do not reflect this discussion but it</p>	<p>4. Endorse: N</p> <p>Remarks or request for additional information from NRAR/DPIE-W</p> <p>Not supported - Non-consensus report received 25th January 2022</p>	<p>4. Endorse: Y only if the model and department engineers indicate that the stated head is the average head for the length of time the pipes are in a flood situation.</p>

		<p>vary over the course of the event the modelling took the approach that 200ml head was to be used to provide a consistent rate of take.</p> <p>I'm will get to my papers if it rains, we've been flat for about 10 days now.</p>	<p>should have been captured in the recording of the meeting.</p> <p>While we couldn't remember previous examples of decisions on pipe rates and [REDACTED] has sent us two cases, I am interested in your position on this contested issue.</p> <p>I do not understand why there is ongoing discussion of the committee's decision between staff and a contractor. [REDACTED] has been back to us numerous times. There seems to be no sunset on options for submissions to keep returning, even when the committee has reached a consensus decision</p>

				<ul style="list-style-type: none"> • Red Bobs - Floodplain Management Study Part 2 • Carroona to Breeza FMP • Carroll to Bogabri FMP • Blackville FMS • Lower Cox's Creek Floodplain risk study • Upper Yarraman FMP <p>I checked the current Upper Namoi FMP to find what flood studies had been referenced there. The documents added to the folder are based on that information. We do not have any other information available.</p> <p>I have also added a folder named 'Aerial images' which contains aerial images of both properties at various dates. Where it was available I included a 1998 image.</p>
