

Module 5: Clean safe water

Exploring access to clean safe water

- [See, think, wonder](#)
- [A world without clean water](#)
- [Water solutions](#)
- [Azam and Abby](#)
- [We all say water](#)
- [Water droplets](#)

See, think, wonder

Write or draw.

What do I see?

What do I think?

What do I wonder?

A world without clean water

Predict: what if you didn't have access to clean water?

Write or draw your prediction.

Now: I have clean water every minute, every day.	Prediction: the water is dirty and it's very far away.

Water solutions

Read a story about water inequality. List or draw answers to the questions.

Who was the water story about? Where are they from?		
Before	Solution	After
What challenges or problems did they have? How did it make them feel?	How did they overcome their challenges or fix problems?	How was their life become better? How did it make them feel?

Azam and Abby

Circle and check the correct answers about Azam and Abby's water story.

Azam Muhammad's story

Where did Azam come from? (circle answer)

Paris
