

Available Water Determination Order for Unregulated River Water Sources 2021

under the

Water Management Act 2000

I, Graham Attenborough, having delegated authority in pursuance of section 59 (1) (a) of the *Water Management Act 2000*, make the following Order.

Dated this 24th day of June 2021.

GRAHAM ATTENBOROUGH Chief Operating Officer – Water NSW Department of Planning, Industry and Environment – Water Group (by delegation)

Explanatory note

This Order is made under section 59 (1) (a) of the *Water Management Act 2000*. The object of this Order is to make an available water determination for various categories and subcategories of access licences in the water sources identified in Schedule 1.

Available Water Determination Order for Unregulated River Water Sources 2021

under the

Water Management Act 2000

1 Name of Order

This Order is the Available Water Determination Order for Unregulated River Water Sources 2021.

2 Commencement

This Order commences on 1 July 2021.

3 Available water determination

This Order determines the availability of water in relation to unregulated rivers in each water source specified in Schedule 1, for each category of access licences specified in Schedule 2.

4 References to percentages and ML / unit share

In this Order:

- (a) in relation to licences with share components specified as megalitres per year (ML/year), a reference to megalitres per unit of share component (if any) is taken to be a reference to a percentage of the share component, where 1 ML per unit of share component is taken to equal 100% of the share component, and
- (b) in relation to licences with share components specified as a number of unit shares, a reference to a percentage of the share component (if any) is taken to be a reference to megalitres per unit of share component, where 100% of the share component is taken to equal 1 ML per unit of share component.

Note: Water sharing plans generally require available water determinations to be expressed as:

- (a) a percentage of the share component for access licence where share components are specified as ML/year, or
- (b) megalitres per unit of share component for access licences where share components are specified as a number of unit shares.
