Subject: Your submission for Border Rivers Regional Water Strategy

1. Information on confidentiality and privacy

I give my permission for my submission to be publicly available on the NSW Department of Planning, Industry and Environment website.: Yes

I would like my personal details to be kept confidential.: No

2. Your details

Email address: [REDACTED]

Name: Craig Brian Peter Coyle

Address: [REDACTED]

Contact phone number: [REDACTED]

Do you identify as an Aboriginal person?: No

Are you an individual or representing an organisation?: Organisation

3. Organisation or business details

Who do you represent?: Other

If you selected Government, please clarify.:

If you selected Peak representative organisation, please clarify.:

4. Draft Regional Water Strategy objectives and vision

Do you support this vision for the Border Rivers Regional Water Strategy? : No

If no, please outline your vision for the long term management of water resources in this region?:

INFRASTRUCTURE PLANNING & DEVELOPMENT WATER CORRESPONDENCE  
Construction and Development of similar project to "The Bradfield Scheme" to develop water infrastructure throughout the central midlands of the eastern states region of Australia City, Towns and Agricultural Water supply Improve the share of water for the environment in regulated rivers Restore natural season flow patterns HYDROELECTRIC DAM To be commissioned Raising Australian Capitals for the economic induction of contributions to Australia's futures interests, in population, sustainability and productivity in the fields of energy resources, agricultural and export manufacturing INVESTMENTS GROWTH & POPULATION SUSTAINABILITY Population Sustainability Development and promotions of Australia APPROXIMATE ESTIMATED CAPITAL INVESTMENT Finance Costs - \$12 Trillion / 100 Years RESEARCH CONTROLS Government Developments - Grants

5. Information and modelling used to develop the Border Rivers Regional Water Strategy

Do you have any comments about the information used to develop this strategy?:

Please provide details if there is additional information you think we should consider?:

6. Stochastic modelling method

Do you have any comments about the modelling method used to develop this strategy?:

Is there any additional information that you believe could help us assess the benefits and disadvantages of draft options?:

7. Opportunities and challenges for water management in the Border Rivers region

Do you have any comments on the opportunities, risks and challenges identified?:

Are there any additional opportunities, risks and challenges that we should consider and what options could address these?:

8. Draft Border Rivers Regional Water Strategy options

Which five (5) options do you think are most important?:

Please comment on why you think these options are most important? :

Which five (5) options do you think are least important? (If any):

Please comment on why you think these options are least important? :

Do you have any comments on the draft options?:

9. Option combinations

Do you have any thoughts on how the options could be combined with other options?:

Are there additional options that we should consider?:

10. Other comments

27. Water efficiency projects (towns and industries) 24. Protecting ecosystems that depend on groundwater resources 33. Training and information sharing program 39. Maintaining the Great Artesian Basin for the future 42. Culturally appropriate water knowledge program

the installation of water mechanical system revolve around supplementary pre-existing networks

Survey engineering that would create a three-tier development for the municipal town, to be City of Hay in New South Wales

Do you have any other comments about the Border Rivers Regional Water Strategy?:

Developing an opportunity to construct a huge development into Central Queensland/ Western New South Wales which would benefit the world at many different levels mainly through agricultural and environmental technology enriching the foundations of Central Eastern Australia by providing water to regional areas from the North Queensland tropics. Encompassing futures technology and inviting people to innovate and contribute to the overall vision of sustainability to light our way into the future

11. Referral

How did you hear about the public exhibition of this strategy?:
