Subject: Opposition to the Dunoon Dam

We are a local family in Modanville, [REDACTED] has Darug heritage.

We are opposed to the dam on many grounds.
Primarily would like to see a water audit of the area to see where water is being wasted there are numerous leaking council mains.
There are many other strategies which could be employed and we are not seeing any of them given a chance to be discussed by Rous.

We are also just teaching our kids about aboriginal heritage and we do not want to see a heritage area be destroyed in our lifetime.

I believe it's also true that there is enough water for this region and the water for the dam is to be used in other regions therefore it is a monetary project not an environmental or a social project for this area.
