**SUBMISSION - FNC Water Strategy.**

You probably think that I'm just another asshole telling you how to do your job..  
maybe that I'm a leftist tree-hugging hippy?  
Hell-bent on stalling any and all advancement...?  
Perhaps you think that I'm selfish...?  
My name is Ken, I live in Dunoon, and it just feels like there's a better way to move forward to the future.  
(I'm a straight shooter, what can I say)?  
I've looked at the information as well and it just sounds like there may be other ways to get a better result.  
It looks like you're passionate about serving your community,  
Making tough decisions..  
It cannot be an easy office.  
And it sounds like you probably don't get the recognition that you should be?  
I just want to say that I appreciate the efforts you have made on our behalf.  
And I'm very grateful for your time.  
What's it going to look like with the losses due to the dam?  
What's going to happen if it doesn't rain?  
What's it going to look like when we've got all the trucks and heavy equipment churning up our roads?  
How's it going to feel when we've flooded and lost the Big Scrub?  
Forever?  
How can we move forward?
