 Subject: Your submission for North Coast Regional Water Strategy  
 Attachments: 3D7E1058-FBDF-443F-9CE9-C2B8938ED938\_1\_201\_a.jpeg

1. Information on confidentiality and privacy

I give my permission for my submission to be publicly available on the NSW Department of Planning, Industry and Environment website.: Yes

I would like my personal details to be kept confidential.: No

2. Your details

Email address: [Redacted]

Name: [Redacted]

Address: [Redacted]

Contact phone number: [Redacted]

Do you identify as an Aboriginal person?: Yes

Are you an individual or representing an organisation?: Individual

3. Organisation or business details

Who do you represent?: Peak representative organisation

If you selected Government, please clarify.:

If you selected Peak representative organisation, please clarify.: Community organisation

4. Draft Regional Water Strategy objectives and vision

Do you support this vision for the North Coast Regional Water Strategy? : No

If no, please outline your vision for the long term management of water resources in this region?: No mining within 50kms of a major river system - ALL mining licences declared null & void - let the wild rivers run - no government assistance to "kick start the economy"

5. Information and modelling used to develop the North Coast Regional Water Strategy

Do you have any comments about the information used to develop this strategy?: A lot of the information is based on recycled water but really should be on water retention by local councils & not be dictated to by the State Government

Please provide details if there is additional information you think we should consider?: all households should have their own rainwater tanks, stormwater should be trapped & stored & grey water used efficiently

6. Stochastic modelling method

Do you have any comments about the modelling method used to develop this strategy?: modelling is fine just 20 years too late

Is there any additional information that you believe could help us assess the benefits and disadvantages of draft options?: water is life & must be protected at all costs by the State & Local Government bodies which in turn means no mining & no dams

7. Opportunities and challenges for water management in the North Coast region

Do you have any comments on the opportunities, risks and challenges identified?:	stop all mining , land clearing & dam proposals - keep the North Coast rivers pristine
Are there any additional opportunities, risks and challenges that we should consider and what options could address these?:	
8. Draft North Coast Regional Water Strategy options	
Which five (5) options do you think are most important?:	nos 9,11,21,18,15
Please comment on why you think these options are most important? :	All points 1 to 36 should be implemented immediately - they are all identified just do it
Which five (5) options do you think are least important? (If any):	
Please comment on why you think these options are least important? :	they are ALL IMPORTANT
Do you have any comments on the draft options?:	Get on with it & solve all of them
9. Option combinations	
Do you have any thoughts on how the options could be combined with other options?:	
Are there additional options that we should consider?:	
10. Other comments	
Do you have any other comments about the North Coast Regional Water Strategy?:	20 year too late so the Government needs to make up for lost time
11. Referral	
How did you hear about the public exhibition of this strategy?:	Department of Planning, Industry and Environment
12. Additional information
