

# Wyangala Dam Wall Raising

## Grabine Lakeside Holiday Park van owner information webinar

# Agenda

- Acknowledgement of Country
- Introductions
- Transition to Water Infrastructure NSW
- Project update
- Update on inundation levels
- Questions

# Acknowledgement of Country

# Transition to Water Infrastructure NSW

- Water Infrastructure NSW
- 1 July 2021
- Department of Planning, Industry and Environment
- WaterNSW involved as owner and operator of Wyangala Dam

# Our project

## Key benefits

- Increase storage capacity of the dam by 53%
- Significantly improves:
  - Drought resilience
  - Water reliability
  - Flood attenuation
- Increases capability to manage high inflow/flood events

# Our project

## 10m Full Supply Level

- Environmental Impact Statement
- Final business case
- Concept and detailed design
- Holiday Park planning

# Project update – ongoing activities

Environmental field surveys and investigations continue

Landholder engagement continues

Community information sessions and webinars continue

Environmental Impact Statement public display for consultation

Final business case developed

Construction partner procurement

Detailed design starts

Construction of Water Treatment Plant at Wyangala starts

Construction planning for Holiday Parks finalised

# Grabine Lakeside progress

- Working with Reflections Holiday Parks
- Inundation level
- MISL to be confirmed
- Potential precinct areas for relocations options

# Grabine Lakeside FAQs

- Relocation arrangements
- Moving with friends
- Like for like
- Holiday park to remain open during dam wall construction

# Next steps

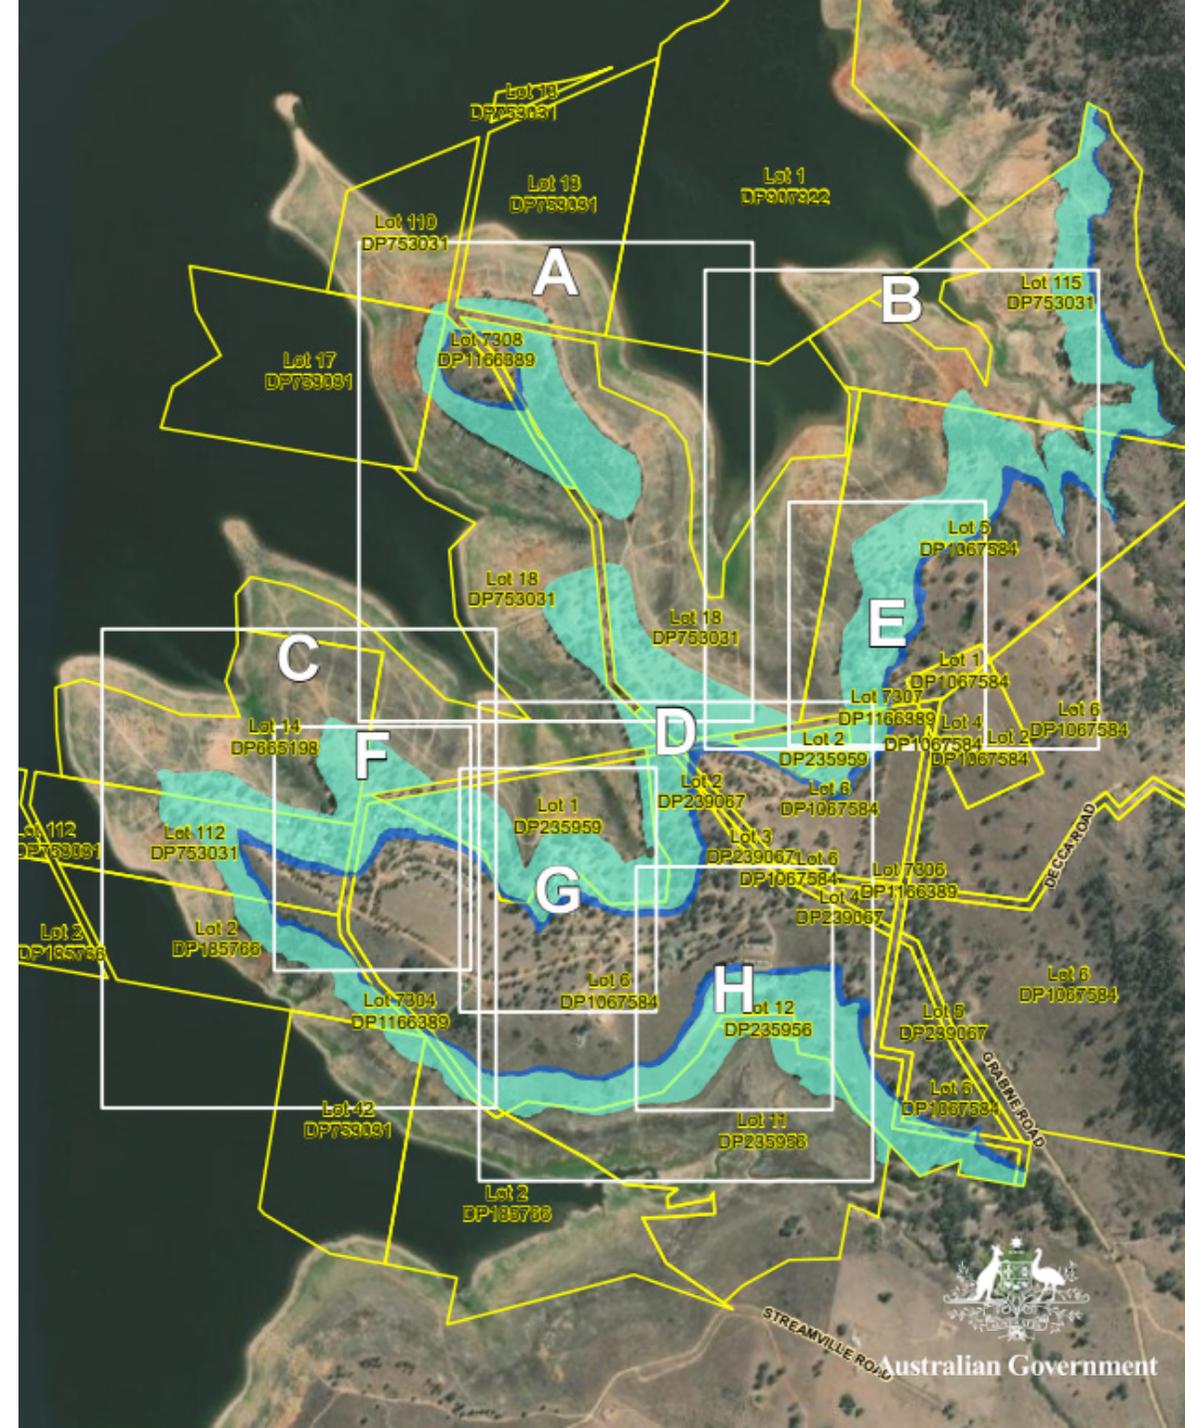

- Government approvals obtained
- Planning, precincts and amenities
- Allocation of sites
- General compensation discussions
- Formal compensation process starts
- Compensation agreement and contract
- Relocation of amenities and sites
- Complete construction of Dam's main wall

# Update

- 10m FSL inundation area
- 1.5 MISL
- Ongoing modelling
